Control Flow Statements

- Write some code that will ask the user what type of vehicle they would like to rent and then display how much that rental will cost.

Would you like to rent a Car, Truck, or Van? (C/T/V) C
A Car costs $100.00 a day.

- Be sure to accept C, c, T, t, V, or v
- Print an error message if invalid input is given

Car - $100
Van - $150
Truck - $120
