

# Practice

- Write a complete program
- A hotel in Ocean City charges \$100 a night for one adult and \$150 a night for two adults, and \$15 a night for each adult after the second. Each child is an extra \$25.
- Vehicle parking is free if your bill, before taxes, is over \$230 a night and \$5 a day otherwise.
- Hotel taxes are 10% if the bill is greater than \$150, 8% is if the bill is \$150 or less but more than \$100, and 7% otherwise.

- Ask the user for the number of adults and children, and the number of nights and output the following table:

HOTEL BILL	
Adults	2
Children	3
Nights	1
Hotel	
Charges	\$ 225.00
Parking	\$ 5.00
Taxes	\$ 23.00
Total	\$ 253.00
