Functions

- Computation

```
void createReverse(char szDNA[], char szReverseDNA[], int maxLength)
```

```
void createComplement(char szDNA[], char szComplementDNA[], int maxLength)
```

- Input/Output

```
void printDNAString(ostream &out, char szDNA[])
```

```
void printDNAStringWithMessage(ostream& out, char szDNA[],  
                                string msg)
```
