

Inheritance Lab

Requirements

1. Grab the solution InheritanceLab from CS250 Public
2. The Lab contains a Circle class.
3. You must subclass Circle to produce a Donut class
4. A Donut is a Circle with a smaller circle of a different color drawn on top at the same x, y location.

BONUS

5. You must subclass Circle to produce a Balloon class.
6. A Balloon is a circle with a string (a straight line or curved line) dangling below the circle

Example
