BONUS + 4.5 pts:

Add a command type to Commands.txt that prints all the accounts using a
particular currency (possibly converting all the values from their existing
currency). If a Money object cannot be converted to the given currency,
display that Money object in its original currency.

To receive any bonus points, you must pass the test case on the assignment
handout with no errors and pass one other test case with no errors.

You must email me before the assignment is due that you want me to check your
bonus.

Command: **OUTPUT:**
C YEN   For the final values in the 3 accounts in
                                          the Expected Output.

```
-------------
1, USD0.00, F 1.00%, USD1.00, USD1.00
3, YEN179.00, F 1.00%, YEN1.72, USD1.00
4, USD936.54, F 1.00%, USD1.00, USD1.00
-------------
```
