## 3. EXCEL FORMULAS \& TABLES

Fall 2017

## Cell References

- Absolute reference - refer to cells by their fixed position.
e.g. =\$A\$2+1
- Relative reference - refer to cell references in formulas in relation to the cell that contains the formula ("that is, where is A2 from B4?").
e.g. =A2+1
- Combination - either the row is absolute and the column is relative or the row is relative and the column is absolute. e.g. $=\$$ A2 +1 or $=A \$ 2+1$

## Example

- Excel adjusts cell references during the fill based on the reference type.

| A3 |  |  |  |  |  | $f x$ |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- |

## Combination Cell References

- How do $\$ \mathrm{~A} 1$ and $\mathrm{A} \$ 1$ differ from $\$ \mathrm{~A} \$ 1$ ?

|  | $\mathbf{A}$ | $\mathbf{B}$ | $\mathbf{C}$ | $\mathbf{D}$ | $\mathbf{E}$ |
| :---: | :---: | ---: | :--- | :--- | :--- |
| 1 | 4 | 8 | $=\mathrm{A} 1 / \$ \mathrm{~A} \$ 3$ |  |  |
| 2 | 6 | 4 | $=\mathrm{A} \$ 1^{*} \$ \mathrm{~B} 4+\mathrm{B} 2$ |  |  |
| 3 | $=\mathrm{A} 1+\mathrm{A} 2$ | 1 |  |  |  |
| 4 |  |  |  |  |  |
| 5 |  |  |  |  |  |

- What formula would result in cell D1 if you copy the formula from cell C1 to D1?
- What formula would result in cell E5 if you copy the formula from C2 to E5?

## Named Cell Reference

-What kind of cell reference is a named cell?

| Name Manager |  |  |  |  |  | ? | $\times$ |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| New... | Edit... | Delete | Refers To | Scope | Comment | Filter ${ }^{\text {- }}$ |  |
| Name | Value |  |  |  |  |  |  |
| © Months | Months |  | =Problem3.2!SAS1 | Workbook |  |  |  |
| Refers to: |  |  |  |  |  |  |  |
| $\times \square=P$ | =Problem3.2!SAS1 |  |  |  |  |  | 品 |
|  |  |  |  |  |  | Close |  |

P3.1

- An interesting Web site is www.worldometers.info
- Using the population of the world today and the present growth rate of $1.11 \%$ per year, design a worksheet that shows the population for each of the next 25 years.
- Let's design and then implement
- Make sure that the population is stored as a number and that you show the 1000 separator (,)
- Make sure that percentages are displayed as percentages

## P3.1 Continued

- What is the predicted world population in 2041 if the growth rate is $1.11 \%$ ?
- What is the predicted world population if the growth rate is $1 \%$ ?

## What-If Analysis \& Goal Seeking

- Using Excel to scrutinize the impact of changing values in cells that are referenced by a formula in another cell is called what-if analysis.

## Goal Seek

- Located under Data->What-If Analysis->Goal Seek
- Goal seek allows you to see how one data item in a formula impacts another.
- Goal seek can be used to answer the question:
- What growth rate will lead to the population reaching 10 Billion in 2041?

## Goal Seek

| 4 | A | B | C | D | E | F |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 1 | 2016 | 7,393,225,210 |  | Growth Rate | 1.13\%! |  |
| 2 | 2017 | 7,476,768,655 |  |  |  |  |
| 3 | 2018 | 7,561,256,141 |  |  |  |  |
| 4 | 2019 | 7,646,698,335 |  |  |  |  |
| 5 | 2020 | 7,733,106,026 |  |  |  |  |
| 6 | 2021 | 7,820,490,124 |  |  |  |  |
| 7 | 2022 | 7,908,861,663 |  |  |  |  |
| 8 | 2023 | 7,998,231,800 |  |  |  |  |
| 9 | 2024 | 8,088,611,819 |  | Goal Seek | ? | $\times$ |
| 10 | 2025 | 8,180,013,132 |  |  |  |  |
| 11 | 2026 | 8,272,447,281 |  | Set cell: |  | 國 |
| 12 | 2027 | 8,365,925,935 |  | To value: | 10000000000 |  |
| 13 | 2028 | 8,460,460,898 |  | By changing cell: | SES1\| | 豩 |
| 14 | 2029 | 8,556,064,106 |  | OK | $\mathrm{Ca}$ |  |
| 15 | 2030 | 8,652,747,631 |  |  |  |  |
| 16 | 2031 | 8,750,523,679 |  |  |  |  |
| 17 | 2032 | 8,849,404,597 |  |  |  |  |
| 18 | 2033 | 8,949,402,868 |  |  |  |  |
| 19 | 2034 | 9,050,531,121 |  |  |  |  |
| 20 | 2035 | 9,152,802,123 |  |  |  |  |
| 21 | 2036 | 9,256,228,787 |  |  |  |  |
| 22 | 2037 | 9,360,824,172 |  |  |  |  |
| 23 | 2038 | 9,466,601,485 |  |  |  |  |
| 24 | 2039 | 9,573,574,082 |  |  |  |  |
| 25 | 2040 | 9,681,755,469 |  |  |  |  |
| 26 | 2041 | 9,791,159,306 |  |  |  |  |
| 27 |  |  |  |  |  |  |

## P3. 2

- The university you are planning on attending has given you the following average expenses for a typical student.

| 4 | A | B | C |  | D | E |
| :--- | :--- | :---: | :---: | :---: | :---: | :---: |
| 1 | Category | Freshmen | Sophomore | Junior | Senior |  |
| 2 | Room and Board | $\$ 9,047.00$ |  |  |  |  |
| 3 | Books and Supplies | $\$ 1,137.00$ |  |  |  |  |
| 4 | Personal Expenses | $\$ 1,989.00$ |  |  |  |  |
| 5 | Transportation | $\$ 1,073.00$ |  |  |  |  |

- Assuming a $3 \%$ increase in all expenses from year to year, finish the above worksheet showing expenses for each of your four years in college
- Write one formula in cell C1 and fill it down and right

## P3.2 Better Design

- How would we change the previous worksheet from $3 \%$ to 4\%?
- Below is a better design:

| A | B | C | D | E | F | G | H |  |
| :--- | :--- | :--- | :---: | :---: | :---: | :---: | :---: | :---: |
| 1 | Category | Freshmen | Sophomore | Junior | Senior |  |  |  |
| 2 | Room and Board | $\$ 9,047.00$ |  |  |  |  |  | Expense Increase |
| 3 | Books and Supplies | $\$ 1,137.00$ |  |  |  |  | $4 \%$ |  |
| 4 | Personal Expenses | $\$ 1,989.00$ |  |  |  |  |  |  |
| 5 | Transportation | $\$ 1,073.00$ |  |  |  |  |  |  |

## P3.3 Meteorology

- A meteorology class found the average weekly temperature for each week of each month for one year.
- The data is on the next slide. You are to find each of the following using an Excel worksheet:
- The average monthly temperature for each month.
- The highest and lowest monthly averages using two functions we have not discussed yet: maximum and minimum. See if you can use the help feature to figure this out.

## P3.3 Meteorology

- Let's import the data from the web
- Go to Data->From Web

- Type in the following URL in the address box:
- zeus.cs.pacificu.edu/ryand/cs300/fall17/Lectures/WeatherTable.html
- Select the second yellow arrow and click Import
- Select OK

## Problem 3.3 Continued: Charting

- Select columns Month and Week 1
- Choose Insert | Recommended Charts | Line
- OR select circled icon and the option in upper left of dropdown menu

## Add a new Series

- To add other weeks
- Right Click on the Chart | Select Data
- Add
- Series Name
- Series Values

- Edit Horizontal (Category) Axis Labels to show months.

## Format the Chart

- Click on Chart -> Design | Add chart Element
- Axis Titles
- Chart Title
- Legend | Right
