

## CS260 Presentation Details:

Each group will present the following:

- 1) Demo of your application (3 minutes max)
- 2) Explanation of the design making sure we can see what's on the screen from the back of the room (3-5 minutes)
- 3) Each individual group member will talk a minimum of 3.5 minutes and a maximum of 5 minutes on:
  - a) the portion of the project worked on
  - b) new Android material learned and applied to the project
  - c) the portion of your contribution you found most difficult to learn and apply
  - d) what you would do differently
  - e) anything else you want to share with the class

Note1: Each group member must contribute to the group discussion.

Note2: Max presentation time is 18 minutes for groups of two and 23 minutes for the group of three. I will stop you at your max presentation time, so make sure you practice your presentation and can finish or you will lose points. There will be a few minutes for questions at the end of each presentation.

Note3: Two different people need to demo and explain the design.

Note4: 1) and 2) above do not count in your individual talk time.

Note5: Your presentation is to be contained in one file so as you present, you are not going back and forth between different presentation files. Further, you can use PPT or Google Docs or whatever. Just make sure your presentation works and shows up clearly on the instructor computer.
