

CS120-01 Assignment 2

Realtor Website

Date Assigned: Monday, February 28, 2005

Date Due: Wednesday, March 9, 2005

Points: 75

You have just been hired by a realtor company to design their website. They want to see a mock up of the site in ten days (March 9). They specifically want to see the two web pages described below:

- Realtor Main Page
 - Name of realtor
 - Address of realtor
 - Link to featured property page
- Featured Property Page
 - Image of property
 - Address of property
 - Price of property
 - List of property features divided into at least two categories
 - Lot features: could include size, landscaped, views, etc.
 - House features: bedrooms, bathrooms, size, year built, etc.
 - Link back to realtor main page

This assignment will be graded on the use of the following HTML elements:

- At least two headings
- At least two fonts
- At least two font colours
- A background image or colour
- Table to organise information
- A nested list

You will also be graded on:

- Readability of HTML code
- Web site placed on Euler and accessible through:
 - <http://euler.math.pacificu.edu/~username/yourpage>
- Creativity and overall appeal factor

There is a lot of room for creativity in this assignment, so use your imagination. Your featured property could be any type of living abode that you can think of. You might look at examples of realtor sites online for ideas on how to organise the information. You **MUST** use the elements I describe above, but feel free to add more elements, logos, and images to enhance your site.

You MUST cite every image that you use on your web pages

You MUST NOT plagiarise any text on the web pages. All the text should be your own.

How to submit:

- Place all pages and images onto Euler. Your website must be accessible through the URL listed above
- Submit a printed copy of both web pages at the beginning of class on March 9
- You must include the URL of your web page with the printout so that I know where to find your pages
