CS120 Worksheet

1.3 Units of Memory

Date: Tuesday, February 6, 2007   **Name:** _____

Fall Semester 2006

1) Excluding any Microsoft products or Web browsers, give the names of two application programs on the computer you are working on.

2) How many bytes does each of the above applications take on the hard drive?

3) Give one example of a file on the computer you are working on.

4) 5 MB equals _____ KB. Show your work.

5) 5 MB equals _____ GB. Write your answer to 3 decimal places and show your work.

6) Microsoft Word allows files to be saved using .doc and .rtf formats. Write the message hi there and save this text in each file format. What is the size of each of the files created?

7) Open up Word and create a blank document and type in your name and your hometown. Make your hometown appear in bold print by selecting the text and clicking on the bold icon at the top. Change the font size of your name to be 32 point. Save this file as a text file. Close the document and reopen it. Has anything changed? Why?
