Question text

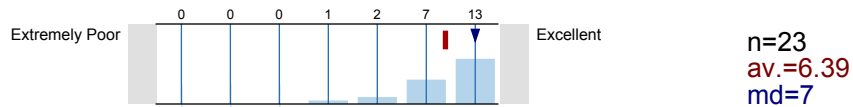

n=No. of responses
av.=Mean
md=Median
ab.=Abstention

1. Course

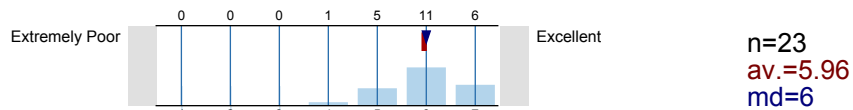

1.1) Your primary reason for taking this course was (mark the most appropriate response):

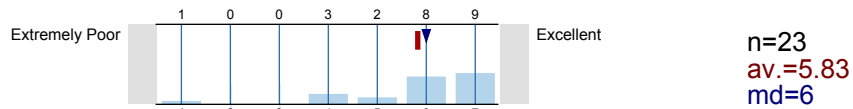

1.3) Rate your level of effort in this course.

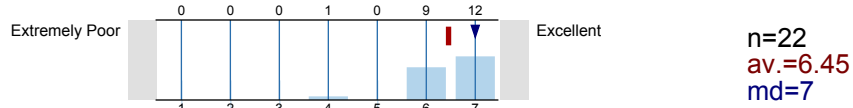

1.5) Provide an overall rating of the course.

1.7) Rate the likelihood that you would recommend this course to another student.

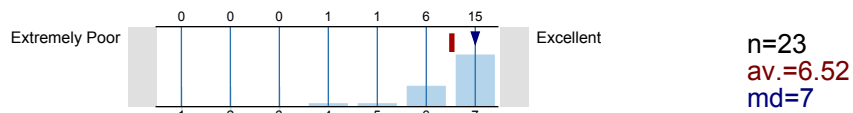

1.9) Rate your increase in skills/understanding as a result of taking this course.

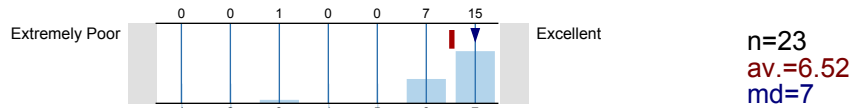

2. Instructor

2.1) Provide an overall rating of the instructor.

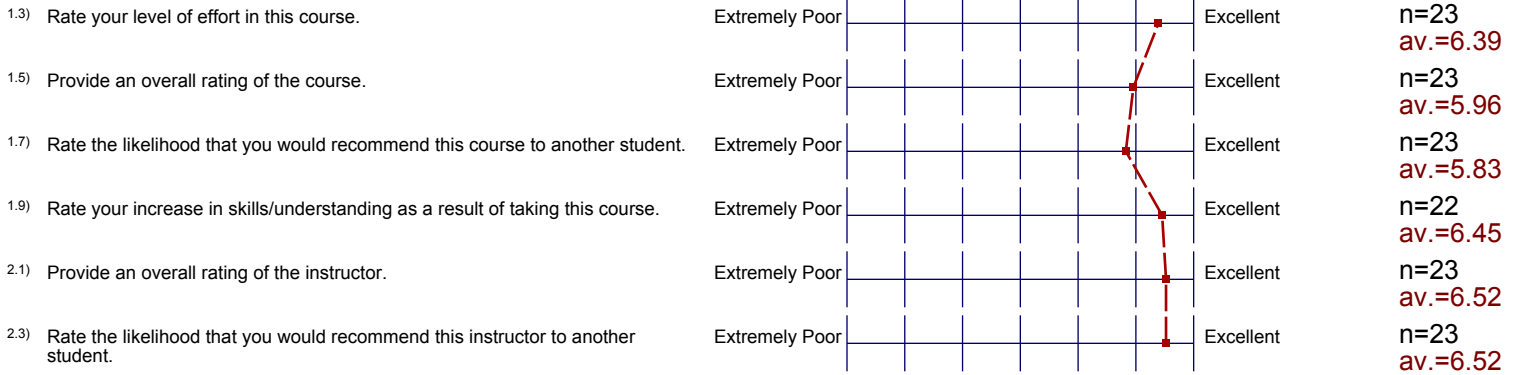

2.3) Rate the likelihood that you would recommend this instructor to another student.

Profile

Subunit: 1 VIII
Name of the instructor: Khoja Shereen
Name of the course: CS-130-01 Intro to Software Tools 2012W
(Name of the survey)

1. Course

^{1,2)} Other reason for taking course:

focal study

Focal Studies

NEEDED CREDIT IN ORDER TO GRADUATE.

^{1,4)} Level of Effort Explanation:

TO GET A GOOD GRADE / RAISE GPA

Attendance, preparation, and participation.

My my class so I had the time to be more dedicated.

since this was a 2 week course, I wanted to try and get an A, so I gave it my all.

I did all the homework and class problems.

1.6) Overall Rating Explanation:

Well structured, didn't feel rushed.

I feel ~~that~~ this class is very difficult because even though you know the concepts but the computer is giving you trouble to get a good grade.

Perhaps a little rushed, but overall we learned a lot, and it wasn't overly difficult to keep up.

It's interesting, but kind of slow.
Usually the material ~~was~~ was way too easy for the amount of time given.

I am glad I took this as a winter course & not during the school year, because I feel like time was efficiently used.

The course overall is good. I just find that the SPSS part of the class is a bit difficult since I don't have any background in statistics.

Since it is a condensed version of CS 130, I'm sure we didn't get to learn as much... but I still learned a lot of new techniques & material.

The course covered the necessary tools for a Biology major.

It's a good class to have if you're thinking about going into research or need to analyze data for a class; it's just a boring subject.

very helpful!

1.8) Likelihood Explanation:

The course is very useful, the course just needs to focus on the skills though, rather than the understanding of statistics.

but before they take Research meth.

Great class to take to understand Excel, SPSS, and some Word things. Also good to take to improve yourself in those softwares.

Especially for any majors that require research.

Learned a lot of interesting things that I think will be very helpful in my research.

It is not difficult, and you learned a lot of stuffs for Excel & SPSS.

I definitely liked the winter class set up, however I think I would probably recommend it for only the winter session next because it would be a lot better.

Learning about the useful things Excel could do and doing Mail merging is extremely helpful.

I think every major should require since so many of the techniques can be everyday skills.

same as 1.6

^{1.10} Skills/understanding Explanation:

I learned a lot

I already knew a little about Excel, but I definitely learned a lot more. And I had never even heard of SPSS before this course, so I learned a lot about that too

very resourceful info learned.

I keep forgetting because we don't get enough time to practice.

I learned a ton about using excel and SPSS, and I'm sure I can apply it in classes later on.

I learned a lot about Excel and SPSS - and even about writing letters in Word - from this class

already knew some about excel & word
SPSS was new

I learned quite a bit of things I didn't know you could do in Excel. I've also learned to appreciate SPSS and its many capabilities

I learned more about what Excel, SPSS, and Microsoft ~~Word~~ Word can do.

I am now much more confident when using various softwares on the computer.

2. Instructor

2.2) Instructor Rating Explanation:

She was great, and during office hours she was great with answering questions

Very Helpful, taught well.

SUPER nice and friendly. Easy to learn from, very helpful. class was structured good, I learned a lot.

Very helpful, always willing to answer questions, and really knew the material.

Shereen is super nice and awesome. 😊

very nice & helpful, but could perhaps be a little bit more organized

Helpful and friendly.

I like that she is very cheery and easy to talk to.

Very helpful and willing to explain things and answer questions.

She's awesome.

she explains the concepts well and walks through some of the problems. She's also available during office hours and willing to help students during class when we're working on class problems.

shereen ~~prof~~ makes learning the content of this course easy to understand and she is always willing to help.

2.4) Recommendation Explanation:

she's excellent!

She was really good with office hours, explaining things, and e-mails, therefore she is an awesome prof and I would recommend her.

Helpful

Very Nice & Personable.

ITS A WINTER CLASS SO EVERYTHING IS VERY RUMED, BUT SHE DID A GREAT JOB PRESENTING THE MATERIAL IN A VERY ORGANIZED WAY.

Shereen is a very good and helpful professor.

Great teacher. Helpful, friendly, Easy to understand & learn from. Makes things fun!

She's awesome.

very helpful

Shereen is very nice 😊
and very knowledgeable!

Shereen was very helpful & fair.

same as 2.2

^{2.5)} Please provide any additional comments that you want to make about the course and instructor.

This course was very helpful, and I'm sure I would use these skills in my future classes. Our professor was extremely helpful and I would gladly recommend her to other students.

Excellent, she knows when you are having troubles. She don't give answers right away but she give hints. Lots of hints that a middle school can figure out.

I liked if statements. They kind
of made me interested in CS 150,
which I had absolutely no
interest in before. 😊

This class was very frustrating because alot of the material that is covered I felt my instructor though it should be intuitive. I had no prior experience w/software such as excel and because of this it was impossible for me to keep up and retain info. which consequently caused me to do poorly and utterly hate this course. I would not recommend it.

The format of the class makes learning the material very manageable.

Some of her questions were difficult to understand, but once it was cleared up, the material was easy to learn & the problems were relatable.
