CS130 - SPSS & Graphical Display of Statistics

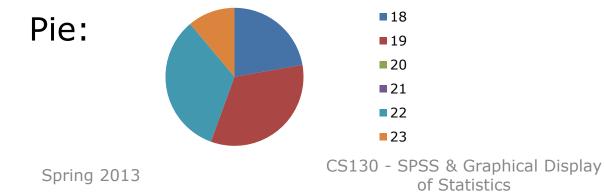

Common Display of Statistical Info

Age of Freshmen

Sample CS120 Dataset

• Consider the following CS120 class information:

| ID | Year | Age |
|------|------|-----|
| 0001 | FR | 18 |
| 0002 | FR | 18 |
| 0003 | SR | 22 |
| 0004 | JR | 22 |
| 0005 | SO | 19 |
| 0006 | FR | 19 |
| 0007 | SR | 23 |
| 8000 | SO | 19 |
| 0009 | SR | 22 |

If this data was in SPSS, what would be the Type and Measure for each variable?

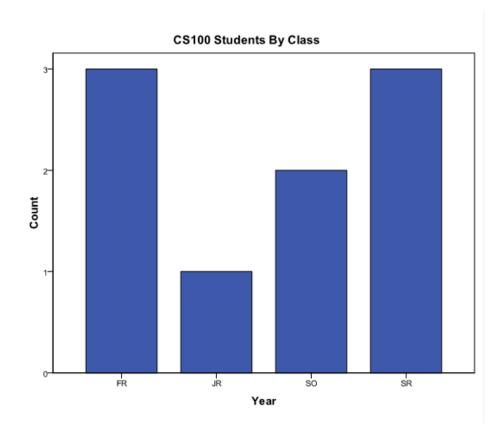

Exercise

Copy CS120.sav from CS 130 Public to your Desktop.

- Let's discuss the variable definitions and data.
- Create a **Bar Chart** to show how many students in each Year took CS 120.
- Create a **Pie Chart** to show how many students in each Year took CS 120.
- Create a Bar Chart to show the median age of students in each Year.
- Create a Word document called graphs.docx that has all three graphs in the document properly labeled and looking professional. Let me see the results.
- Enter this data into Excel and build the three charts above. Spring 2013 CS130 - SPSS & Graphical Display of Statistics

Bar Chart

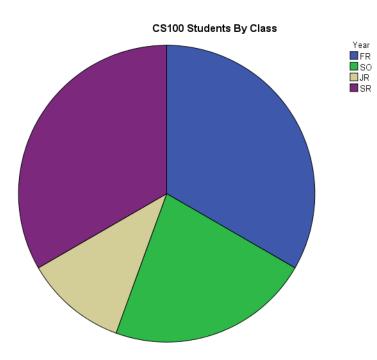

We could take the above information and show using a bar chart a graphical representation of the number of students that are FR, SO, JR, and SR.

CS130 - SPSS & Graphical Display of Statistics

Pie Chart

 Notice with a pie chart we get a better visualization of the frequency of occurrence as a percent. The amount of arc in the above example is proportional to the represented quantity.

More SPSS practice

- Compare the mean, standard deviation, and median for age by year
- Add the Report to the Word document from earlier

| | | | Report | | |
|---|-------|-------|--------|----------------|--------|
| | Age | | - | | |
| Make sure the Year is in the correct order! | Year | Mean | Ν | Std. Deviation | Median |
| | FR | 18.33 | 3 | .577 | 18.00 |
| | SO | 19.00 | 2 | .000 | 19.00 |
| | JR | 22.00 | 1 | | 22.00 |
| | SR | 22.33 | 3 | .577 | 22.00 |
| | Total | 20.22 | 9 | 1.986 | 19.00 |
