

Control Flow Statements

- Write some code that will ask the user what type of vehicle they would like to rent and then display how much that rental will cost.

```
Would you like to rent a Car, Truck, or Van? (C/T/V) C  
A Car costs $100.00 a day.
```

```
Car - $100  
Van - $150  
Truck - $120
```

- Be sure to accept C, c, T, t, V, or v
- Print an error message if invalid input is given
