

Open a terminal inside of Eclipse

Run make tarball & scp

The screenshot shows an IDE interface with a terminal window. The terminal has two tabs: 'GenericDynamicList (Local)' and 'GenericDynamicList (Local) (1)'. The active tab shows the following commands and output:

```
chadd@CS-Laptop-VM:~/git/cs300f19/GenericDynamicList> make tarball
rm -f bin/*.o bin/listdriver bin/assignmentdriver
tar czf ../cs300_2A_will4614.tar.gz ../GenericDynamicList
tar: Removing leading `../' from member names
tar: Removing leading `..' from member names
chadd@CS-Laptop-VM:~/git/cs300f19/GenericDynamicList> scp ../cs300_2A_will4614.tar.gz chadd@zeus.cs.pacificu.edu:
```

The IDE's top bar includes icons for Problems, Tasks, Console, Properties, Call Graph, Terminal, Git Staging, and Valgrind.
