

CS445 Final Presentation Description

10 points

10 minutes maximum

What problem did you solve?

Who is your audience?

What features did you implement?

Show screenshots to illustrate your talk.

 Show input and output screens.

 Show the search features.

What did you need to change with your original design (ER diagram)?

What challenges did you run into? How did you solve them?

Your presentation must be ready to go at 1 pm on Friday, Dec 2. Submit it into CS445Drop on Turing.

It must work on the computers in our classroom in Marsh. If you make a presentation in LibreOffice/OpenOffice export the slides as a PDF.

Be sure to practice your presentation. This needs to be a professional presentation to showcase your database project. Formal dress is not required but no hats are allowed.
